Micro HSS is an advanced Home Security System which can be installed at one's residence. This Security System sends SMS alerts to the registered user's mobile, anywhere in the world, regarding incidents such as forcible door intrusion, motion detection, gas leakages or fire outbreaks at his residential premises. These SMS alerts can be received not only by the registered user but also others whom the user may choose to register, through the 'Add-on' Facility.

Micro HSS is available in two models

1. Micro HSS - Elite
2. Micro HSS - Premium
